25. World Trade Center Building 7 is the 47-story skyscraper that was not hit by any planes during the September 11th attacks, but still totally collapsed later the same day. This collapse was not investigated by the 9/11 Commission. Are you aware of this skyscraper's collapse, and if so do you believe that the Commission should have also investigated it? Or do you believe that the Commission was right to only investigate the collapse of the buildings which were directly hit by airplanes?

25. World Trade Center Building 7 is the 47-story skyscraper that was not hit by any planes during the September 11th attacks, but still totally collapsed later the same day. This collapse was not investigated by the 9/11 Commission. Are you aware of this skyscraper's collapse, and if so do you believe that the Commission should have also investigated it? Or do you believe that the Commission was right to only investigate the collapse of the buildings which were directly hit by airplanes?

26. Some people say that so many unanswered questions about 9/11 remain that Congress or an International Tribunal should re-investigate the attacks, including whether any US government officials consciously allowed or helped facilitate their success. Other people say the 9/11 attacks were thoroughly investigated and that any speculation about US government involvement is nonsense. Who are you more likely to agree with?
